Introduction

Quantira Technologies is a premier Hyderabad-based software solutions company crafting smart digital ecosystems for a smarter business landscape. We deliver a wide range of cutting-edge software solutions that strengthen your technological infrastructure to make your enterprise more agile, efficient, and future-ready.

Mark Origins

Logo Mark

Basic Variant

Dark Background Variant

Outline Variant

Mark Construction

Horizontal Logo

The logo consists of a symbol and a typeface. When the width is much greater than the height (from-strip), the logo of this design is used.

Logo

Logo Construction

Mono Color Logo

Simplicity meets versatility. The mono color version of the Quantira Technologies logo distills our brand identity down to its core geometric structure. Designed specifically for high-contrast environments and restrictive printing methods, this single-color mark ensures our brand remains bold, recognizable, and uncompromised across any medium or background.

TECHNOLOGIES

Safe Size

It is important to follow proper spacing.

Correct Size Appreciation

Incorrect Size Appreciation

Colors

Our minimal, high-contrast palette prioritizes legibility. Use Pure White and Core Black for structure, reserving the dynamic Blue Gradient for key actions and brand moments.

Blue Gradient

RGB
(2, 2, 2)

CMYK
0%, 0%, 0%, 99%)

Core Black

RGB

CMYK
(0%, 0%, 0%, 0%)

Pure White

Color Usage

To maintain visual balance and brand consistency across all touch-points, adhere to our 50/30/20 color distribution ratio. Utilize white as your dominant canvas to create ample breathing room. Apply black strategically for typography and structural contrast, and reserve our signature blue gradient as an impactful accent for key features and calls to action.

Typography

Aa

Lexend

Aa

NotoSans

face engineered to improve reading proficiency. It features expanded character spacing and unique letterforms to reduce visual stress, offering a modern, highly accessible aesthetic.

riting in all modern and ancient languages. Noto Sans is an unmodulated ("sans serif") design for texts in the Latin, Cyrillic and Greek scripts, which is also suitable as the complementary choice for other script-specific Noto Sans fonts. It has italic styles, multiple weights and widths, and 3,741 glyphs.

Title

Is raw honey a prebiotic?

Lead

Raw honey is a potent prebiotic, nourishing good bacteria in the intestines which facilitate healthy digestion.

Paragraph

Honey contains non-digestive oligosaccharides which can't be absorbed by the digestive tract. Instead, these oligosaccharides pass on to the colon where they're able to ferment. This produces short-chain fatty acids that help proliferate bifidobacteria strains which aid in the digesting dietary fiber, prevention of gut infections, and producing essential digestive vitamins.

Photography

Pattern Usage

This geometric pattern reflects the structural integrity of blockchain networks and quantum data. Use it as a subtle background texture to add visual interest and reinforce our technological identity. Ensure the pattern always maintains a low contrast against the background color so that foreground text and imagery remain fully legible and prominent.

Block chain pattern originated from the quantum bits

PROFESSIONAL SUMMARY

As a self-motivated fresher, I’m excited to grow alongside a company’s success story—learning from every milestone, adapting to evolving challenges, and aligning my journey with the organization’s upward path. My goal is to thrive as the company thrives, while consistently adding value through passion, curiosity, and commitment.hggfhgfhjgjhghjghk

EDUCATION

B.Tech (Computer Science and Business Systems)	- Arjun college of Technology , Coimbatore	- CGPA : 8.4	2021 - 2025
Intermediate	- Sri Chaitanya Jr College , Vijayawada	- GPA : 9.6	2019 - 2021nmjnbmbmbnmnbm
SSC	- Sree Swamy Vivekananda EM School , Pulivendula	- GPA : 10	2018 - 2019

INTERNSHIPS

Web Development Intern	- at Neural Arc Global Pvt. Ltd , Coimbatore	(on-site)	Jun 2023 - Jul 2023
Web Development Intern	- at Coincent.ai Learning Drives Excellence	(virtual)	Jun 2024 - Jul 2021

TECHNICAL SKILLS

- **Programming Languages** : Python, JavaScript (ES6+), Core Java
- **Web tech & frameworks** : HTML5, CSS3, Bootstrap , JavaScript, Node.js, Express.js
- **Data & Persistence** : NoSQL/MongoDB, JSON handling and basics of SQL database
- **Version Control** : Git/GitHub workflows, GitHub Actions
- **Testing** : Basic Unit testing
- **Tools & Collaboration** : VS Code, Postman API
- **Core Foundations** : Basic understanding of Data Structures (arrays, linked lists, stacks, queues), Algorithms (sorting, searching)
- **Designs and documentation** : Canva, MS word, MS PowerPoint , Google Sheets , Figma
- **Soft skills** : Strong communication, Analytical thinking, Quick learner, Agile teamwork, Adaptability

PROJECTS

1. Clone of Gemini AI | HTML · CSS · JavaScript · Gemini API

GitHub : <https://kulasekharramanabovina.github.io/GeminiAIClone/>

Description:

- Built a fully responsive web app replicating Google's Gemini AI chat interface using HTML, CSS, and JavaScript.
 - Implemented dynamic prompt handling and conversation-style message rendering to mimic real-time AI behavior
 - Utilized Google's third-party Gemini API to generate AI responses, adding real-time intelligence to the clone’s chat interface
- 2.Spammer Detection and Fake user Identification on Social Networks | Python with ML · Flask · Git ·HTML · CSS · JavaScript

Team Size : 4

GitHub : <https://github.com/KulasekharRamanabovina/Spammer-Detection/tree/main/CODE>

Description:

- Collected real-world social network data and engineered user behavioral features such as post frequency, follower / following ratios, account age, and content similarity.
 - Applied supervised learning algorithms to classify users based on behavioral and statistical patterns, enabling accurate spammer and fake account identification.

3. Travel Booking System | Java Console Project

Team Size : 4

Link : <https://replit.com/@kulasekhar981/TravelBookingSystem>

Description:

- Built a **console-based Travel Booking System** using Core Java
 - Implemented user registration, login, and ticket booking features.
 - Applied **OOP principles** for modular and reusable code
 - Developed a **command-line interface** for user interaction.

Also developed some responsive front-end prototypes, including an **QR code Generator**, Portfolio website.

CERTIFICATIONS

- **MERN Stack Web Development course** – Quality Thought Info systems , Hyderabad
Completed MERN Stack Development training—proficient in MongoDB, Express.js, React.js, and Node.js, with hands-on experience building full-stack web applications.
- Java Software Development** - By ICT Academy in cooperation with INFOSYS foundation.
Completed Java Training—proficient in Core Java fundamentals, data structures, and console app development.
- Database Management System** - By Great Learning
Completed a hands-on certification—working on SQL queries, designing schemas, and implementing real-world data models.

WORKSHOPS

- Attended a Three days’ workshop on “Data Science Techniques for Healthcare Applications” at Dr. Mahalingam College of Engineering and Technology, Pollachi.

ACHIEVEMENTS

- Club Member of **Bureau of Indian Standards (BIS)**.
- Received third rank in **HACK-A-QUEST 2K24** with title “**PRO HACHERS**” with certificate of participation and prize money.
- Certificate of participation and **Won Gold Award** in QC case study for presenting on “Enhancing Communication” in the convention on **Quality Circle Education 2023** held at KPR Institute of Engineering and Technology, Coimbatore.
- Member of **National Service Scheme (NSS)**.

DECLARATION

I hereby declare that the all the information furnished above is true to the best of my knowledge and belief.
